The >eR-BioStat :
A short introduction about the ITP collaboration project

Our new website

<https://erbiostat.wixsite.com/erbiostat>

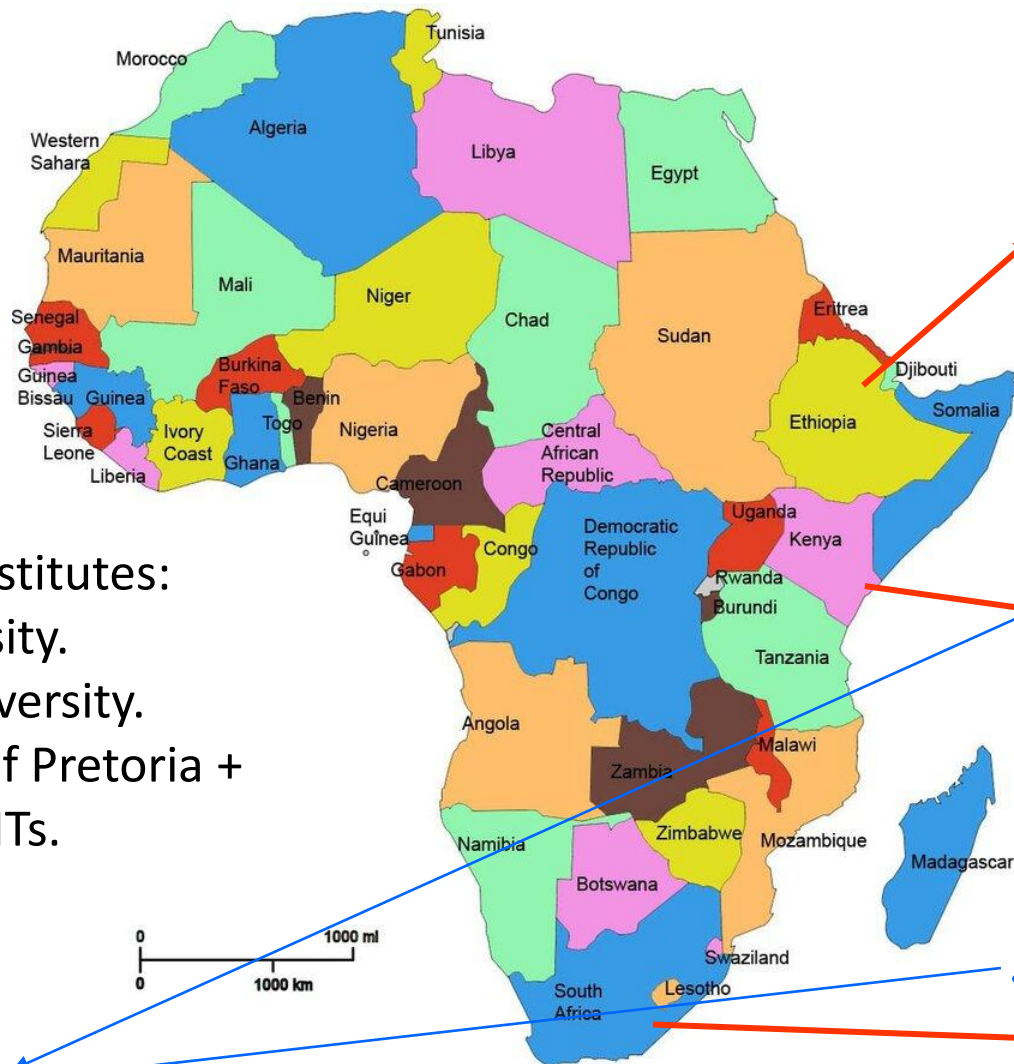

Project's structure

- Three years project.
- Three countries:
 - Kenya.
 - Ethiopia.
 - South Africa.
- In total: 14+ Universities & institutes from the three countries.
- International team: USA, Canada Belgium.
- Institutes from other countries are most welcome to join the project !!!

Project's partners

Gondar University.

Ambo University,
Debre Berhan University
Arba Minch University.
+others....

Moi University.

Karatina University.
JKUAT.
Masinde Muliro Uni.

University of Pretoria. MRC-SA. WITS.

Stellenbosch University.
The University of Venda.
The University of Zululand.

Three leading institutes:

- Moi University.
- Gondar University.
- University of Pretoria + SA-MRC, WITs.

Also partners
in SSACAB

Project's focus

- ITP: **I**nternational **T**raining **P**rogram.
- Focus: Development of (local) E-learning and digital education platforms for (bio)statistics & data science.
- Project's duration: 2024-2026.
- **WE DO NOT DEVELOP A DISTANCE LEARNING PLATFORM !!!**
- We target all levels (in stat & data science) of HE:
 - Undergraduate.
 - Graduate.
 - Courses for PhD schools.
 - Service courses for non statisticians.

Project's activities

- Three academic years: 23/24, 24/25 & 25/26.
 - Workshops:
 - ~~First workshop: Gondar Uni, Ethiopia (14/08/2023).~~
 - **SA-MRC, cape town (end of February 24: workshop + conference).**
 - ~~Third workshop: Moi.~~
 - VISAYAS state university: the Philippines.
 - Hanoi Medical University, Vietnam.
 - Moi Uni, Kenya (1).
 - University of science and technology, Hanoi, Vietnam.
 - Uni. of Pretoria, South Africa (29/06/25-05/07/25).
 - Moi University, Kenya (14/07/25).
 - SUSAN 2025 (09/25).
 - **SAMRC, Durban, South Africa (03/26)**
 - **Moi University, Kenya (3).**
 - IBC2026, Seoul.
- Academic year 24/25.
- Academic year 24/25.
- Academic year 25/26.

>eR-BioStat

Welcome to the 2020 edition of the **>eR-BioStat** initiative website. We are a part of the open-source movement and we offer free courses in statistics. If you are a teacher that needs to give a course in statistics or a student that studies a course in statistics, we are the address. Just [click](#) on the link, [download](#) the materials (for free) and [teach](#) (yourself) in the class. In the next few weeks, we will update and refresh our curriculum. If you want to be updated, follow us on social media and follow our blog. All our courses, as before, are available online in our Github [page](#).

Where to find the ITP10 workshop's materials ?

Workshop's website

<https://erbiostat.wixsite.com/itp6>

ITP10 website

<https://erbiostat.wixsite.com/itp3>

Scroll down to the bottom of the page

The screenshot shows a web browser window displaying the ITP10 website. The browser's address bar shows the URL erbiostat.wixsite.com/itp3. The website has a light green background and a navigation bar with links for HOME, ABOUT, SCHEDULE, and CONTACT. The main content area is titled "/ SCHEDULE (ITP10 - 2026)". Below the title, a red text box contains the message: "A link to all workshop materials is available [here](#) (scroll down to the bottom of the page)". A large red arrow points from this text to the right. The schedule lists events for Monday (08/07) and Tuesday (09/07). The Windows taskbar at the bottom shows the time as 5:32 on 8/06/2026.
